

Heavy Duty Projector Ceiling Mount

With Micro-Adjustment

Installation Guide

- Ceiling mount designed for heavy duty projectors up to 70kg (154lbs)
- Can be mounted to the ceiling directly or to any B-Tech Ø50mm (2") pole
- Full range of adjustments:
 - Tilt (pitch): +20°/-10° incremented adjustment
(additional +/-5° with micro-adjustment)
 - Roll: +/-5° micro-adjustment
 - Yaw: 25° (ceiling mounted) / 45° (pole mounted)
- Maximum distance (between fixings): 873mm (34.37")
- Ceiling drop: 153mm* (6.02") (+/-10mm with micro-adjustment)
*173mm (6.81") if extension legs are used
- Micro-adjustment thumbwheels at 4-points for a controlled and precise adjustment of the projector

Installation Safety Instructions

Caution: This mount is intended for use only with the maximum weights indicated. Use with equipment heavier than the maximum indicated may result in instability causing possible injury.

Do not attempt to install this product until all instructions and warnings have been read and properly understood. *Please keep these instructions for future reference.*

Please check carefully to make sure there are no missing or defective parts - defective parts must never be used. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire.

General

B-Tech AV Mounts recommends that a professional AV installer or other suitably qualified person install this product. Great care must always be taken during installation as most AV equipment is of a fragile nature, possibly heavy and easily damaged if dropped. If you do not fully understand the instructions or are not sure how to install this product safely, then please consult a professional for advice and/or to install this product for you. Failure to mount this product correctly may cause serious injury or death both during installation and at any time thereafter. Do not mount any AV equipment that exceeds the specific weight limit of the product you are installing. This weight limit will be clearly stated on each product and its packaging and will vary from product to product.

Product location

Please pay careful attention to where this product is located. Check load capacity of the ceiling prior to installation as some surfaces are not suitable for installation. Designed for indoor use, this mount is suitable for public or home installation. If located in a public or frequently populated area ensure that the product is out of the immediate reach of people. If any AV equipment is to be suspended over the likely path or location of people then great care should be taken to secure all parts of the installation from falling. When drilling holes it is essential to avoid contact with electrical cables and water or gas pipes contained within. Use of a good quality live wire detector and hidden object locator is therefore recommended. Only drill into structures when you are sure it is safe to do so.

Fixing hardware

It is highly recommended that all fixing screws be used where supplied and that the purpose of all other fixing hardware is fully understood. In some cases more AV equipment fixing hardware will be supplied to accommodate different models of equipment and set up configurations. The installer must be satisfied that any supplied fixing hardware is suitable for each specific installation. The fixing kit supplied with the product may not be suitable for all walls. If any fixing screws or included hardware are deemed not sufficient for a safe installation then please consult a professional or your local hardware store.

Hazard limitation

When routing cables take advantage of any built in cable management features that the product might provide and ensure that all cables are tidy and secure. Check to see that any moving aspect of the product can do so unhindered by any cabling. Some products have moving parts and the potential to cause injury through the crushing or trapping of fingers or other body parts. Particular attention to the nature of moving parts is required especially when assembling installing and adjusting during set up. Immediately after installation double-check that the work done is safe and secure. Double-check all necessary fixings are present and are of ample tightness. It is recommended that periodic inspections of the product and its fixing points are made as frequently as possible (no more than 6 months apart) to ensure that safety is maintained. If in doubt consult a professional AV installer or other suitably qualified person.

- CN B-Tech AV Mounts 建议本产品由专业AV安装人员或其他合格人员安装。B-Tech AV Mounts 及它的代理商、经销商不对由于不恰当的安装而造成的损失或伤害负责。本产品必须安装在合适的架构上，并仅用于不超过所标示的最大承重。
- CS Společnost B-Tech AV Mounts doporučuje provést instalaci tohoto produktu instalátora AV či jinak způsobilé osoby. Společnost B-Tech AV Mounts, její distributoři a prodejci nenesou prostřednictvím odborného odpovědnost za škody nebo zranění způsobená nevhodnou instalací. Tento výrobek je nutno umístit do vhodné konstrukce a používat jen po uvedené maximální výšce.
- DE B-Tech AV Mounts empfiehlt, dass dieses Produkt durch einen qualifizierten AV-Techniker oder eine andere Person mit geeigneter Qualifikation installiert wird. B-Tech AV Mounts, ihre Distributoren und Händler können nicht für durch fehlerhafte Montage verursachte Beschädigung oder Verletzung haftbar bzw. verantwortlich gemacht werden. Dieses Produkt muss auf einem geeigneten Untergrund montiert werden und darf nur bis zum angegebenen Höchstgewicht verwendet werden.
- EN B-Tech AV Mounts recommends that this product be installed by a qualified AV technician or other suitably qualified person. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire. This product must be mounted on a suitable surface and may only be used up to the specified maximum weight.
- ES B-Tech AV Mounts recomienda que un instalador de audio y video profesional u otra persona debidamente cualificada instalen este producto. N	M12 x 10mm Spacer	6
O	M12 x 20mm Spacer	6

Installation Tools Required

Note: Ceiling fixings not supplied

Suitable for loads up to 70kg (154lbs)

Installation Instructions

1. Fix Ceiling Mount In Place

A. Directly To Ceiling

Fix *item 2* directly to the ceiling using suitable fixings (*not supplied*).

Top View

Holes should be drilled into the ceiling at these positions to allow for 25° yaw adjustment.

Bottom View

Ceiling mount slots allow for adjustment as shown.

B. Using A Pole Mount.

i. Fix item 2 to item 3 using items 6 & 7.

To use yaw adjustment on the pole mount, loosen 4 x item 6 by 1 turn. Ensure screws are tightened fully after adjustment has been made.

Warning!

Do not completely unscrew item 6. Mounting hardware is to be loosened only enough to allow for necessary movement.

ii. Insert a BT7850 Ø50mm pole (sold separately) into item 3 and secure in place with item 8.

iii. Tighten grub screws using item 10.

Note:

Item 8 can be replaced with item 6 to prevent cables being obstructed.

Warning!

Ensure item 6 is in place before any AV equipment is fitted.

Warning!

Ensure item 8 is in place before any AV equipment is fitted.

2. Fix Ceiling Mount In Place

A. **Without Legs** (up to 200 x 200mm fixing centres).

- Attach item 1 directly to the projector using items A - D & I - J with items 10 -13.
- Fix mount by using suitable holes and / or slots on the bottom of the projector mount.

Note: The tilt adjustment feature can be used to help access fixing holes.

Remove the M8 x 12mm screw as shown and pull the plunger to change tilt adjustment.

B. Using Legs

- i. Attach items 4 & 5 to item 1 using items 6 & 9.
- ii. Fix items 4 & 5 to the projector using items A - O.

Note: Where possible, use 2 x item 6 and 2 x item 9 for each leg.

Note: Where possible, use all fixing holes on projector (4 minimum).

Note: Spacers (items M, N, O) are to be used where fixing holes on the projector are uneven.

Interface Screws

Projector Mount attached to projector using 4 long legs and 2 short legs.

3. Hook Projector Mount Onto Ceiling Mount

- i. Use the 4x M8 x 12mm screws to hook *item 1* onto *item 2*.
- ii. Once hooked on, fully tighten all 4 screws.

Use gap to hook onto *item 2*.

M8 x 12mm Screw
(Important:
Do not remove
these screws).

Important

All 4 M8 x 12mm screws must be fully tightened once hooked on.

4. Set Adjustments

A. Set main tilt angle adjustment (-10° / $+20^\circ$).

- i. Remove the M8 screw on the side of *item 1*.
- ii. Hold the projector steady, pull the plunger out to disengage and change the tilt angle.
- iii. When desired tilt is reached, ensure plunger is fully engaged and re-insert the M8 screw.

Note: An $\pm 5^\circ$ additional tilt is available when the micro-adjustment is used.

Warning!

Plunger must be re-engaged and the M8 screw must be inserted after tilt is set.

B. Micro-adjust the projector tilt / roll angle ($\pm 5^\circ$ tilt / $\pm 5^\circ$ roll).

Turn handwheels clockwise to raise, or anti-clockwise to lower projector.

- i. Micro-adjust the tilt using either the front 2, or back 2 handwheels simultaneously ($\pm 5^\circ$ tilt).

Note: Micro-adjustment tilt / roll guidelines are located on the sides of the projector mount.

- ii. Micro-adjust the roll using either the left 2, or right 2 handwheels simultaneously ($\pm 5^\circ$ roll).

Warning!

B-Tech recommends that you do not use yaw adjustment when the projector is mounted. This should be done before the projector is attached.

Portrait And Vertical Projector Mounting

1. Fix Ceiling Mount In Place

A. Directly to wall

Fix *item 2* directly to the wall* using the same process as ceiling mounting.

**Wall fixings not supplied.*

B. To a BT7850 Ø50mm pole

- i. Fix 2x BT7052 collars (sold separately) to *item 2* using the fixings included with the collars.
- ii. Insert a BT7850 Ø50mm (2") pole (sold separately) into the collars and secure in place using fixings included with the collars.

- iii. Attach coverplates to the collars.

2. Attach Projector Mount To Projector

Attach projector mount to projector using the same process as standard orientation.

3. Hook Projector Mount Onto Ceiling Mount

Attach projector mount to projector using the same process as standard orientation.

Warning!

All 4 M8 x 12mm screws must not be removed.

Important

All 4 M8 x 12mm screws must be fully tightened once hooked on.

Note: Projector can be mounted vertically as shown.

4. Set Adjustments

Set adjustments using the same process as standard orientation.

Typical Pole Mounted Installation

SYSTEM2™

The BT893 is compatible with the System 2 range of professional install products from B-Tech.

Use B-Tech's System 2 range to mount the projector with extended ceiling drops.
