Installation Safety Instructions

Caution: This mount is intended for use only with the maximum weights indicated. Use with equipment heavier than the maximum indicated may result in instability causing possible injury.

Do not attempt to install this product until all instructions and warnings have been read and properly understood. *Please keep these instructions for future reference.*

Please check carefully to make sure there are no missing or defective parts - defective parts must never be used. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire.

General

B-Tech AV Mounts recommends that a professional AV installer or other suitably qualified person install this product. Great care must always be taken during installation as most AV equipment is of a fragile nature, possibly heavy and easily damaged if dropped. If you do not fully understand the instructions or are not sure how to install this product safely, then please consult a professional for advice and/or to install this product for you. Failure to mount this product correctly may cause serious injury or death both during installation and at any time thereafter. Do not mount any AV equipment that exceeds the specific weight limit of the product you are installing. This weight limit will be clearly stated on each product and its packaging and will vary from product to product.

Product location

Please pay careful attention to where this product is located. Check load capacity of the ceiling prior to installation as some surfaces are not suitable for installation. Designed for indoor use, this mount is suitable for public or home installation. If located in a public or frequently populated area ensure that the product is out of the immediate reach of people. If any AV equipment is to be suspended over the likely path or location of people then great care should be taken to secure all parts of the installation from falling. When drilling holes it is essential to avoid contact with electrical cables and water or gas pipes contained within. Use of a good quality live wire detector and hidden object locator is therefore recommended. Only drill into structures when you are sure it is safe to do so.

Fixing hardware

It is highly recommended that all fixing screws be used where supplied and that the purpose of all other fixing hardware is fully understood. In some cases more AV equipment fixing hardware will be supplied to accommodate different models of equipment and set up configurations. The installer must be satisfied that any supplied fixing hardware is suitable for each specific installation. The fixing kit supplied with the product may not be suitable for all walls. If any fixing screws or included hardware are deemed not sufficient for a safe installation then please consult a professional or your local hardware store.

Hazard limitation

When routing cables take advantage of any built in cable management features that the product might provide and ensure that all cables are tidy and secure. Check to see that any moving aspect of the product can do so unhindered by any cabling. Some products have moving parts and the potential to cause injury through the crushing or trapping of fingers or other body parts. Particular attention to the nature of moving parts is required especially when assembling installing and adjusting during set up. Immediately after installation double-check that the work done is safe and secure. Double-check all necessary fixings are present and are of ample tightness. It is recommended that periodic inspections of the product and its fixing points are made as frequently as possible (no more than 6 months apart) to ensure that safety is maintained. If in doubt consult a professional AV installer or other suitably qualified person.

- CN B-Tech AV Mounts 建议本产品由专业AV安装人员或其他合格人员安装。B-Tech AV Mounts 及它的代理商、经销商不对由于不恰当的安装而造成的损失或伤害负责。本产品必须安装在合适的架构上，并仅用于不超过所标示的最大承重。
- CS Společnost B-Tech AV Mounts doporučuje provést instalaci tohoto produktu instalátora AV či jinak způsobilé osoby. Společnost B-Tech AV Mounts, její distributoři a prodejci nenesou prostřednictvím odborného odpovědnost za škody nebo zranění způsobená nevhodnou instalací. Tento výrobek je nutno umístit do vhodné konstrukce a používat jen po uvedené maximální výšce.
- DE B-Tech AV Mounts empfiehlt, dass dieses Produkt durch einen qualifizierten AV-Techniker oder eine andere Person mit geeigneter Qualifikation installiert wird. B-Tech AV Mounts, ihre Distributoren und Händler können nicht für durch fehlerhafte Montage verursachte Beschädigung oder Verletzung haftbar bzw. verantwortlich gemacht werden. Dieses Produkt muss auf einem geeigneten Untergrund montiert werden und darf nur bis zum angegebenen Höchstgewicht verwendet werden.
- EN B-Tech AV Mounts recommends that this product be installed by a qualified AV technician or other suitably qualified person. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire. This product must be mounted on a suitable surface and may only be used up to the specified maximum weight.
- ES B-Tech AV Mounts recomienda que un instalador de audio y video profesional u otra persona debidamente cualificada instalen este producto. Screen Fixings

A	M6 x 16mm Screw	4
B	M6 x 25mm Screw	4
C	M6 x 40mm Screw	4
D	M8 x 16mm Screw	4
E	M8 x 25mm Screw	4
F	M8 x 50mm Screw	4
G	M6 Washer	4
H	5mm Spacer	4
I	15mm Spacer	4
J	25mm Spacer	4

Suitable for loads up to 70kg (154lbs)

Installation Instructions

1. Attach Mount To Ceiling

- Insert *item 3* into *item 1*.

Note: Do not tighten until the pole extension has been set.

- Fix *item 1* to the ceiling using suitable fixings (*not supplied*).
- Attach *item 2* to *item 1*.

2. Adjust Ceiling Drop To Desired Height

- Push spring button to release height adjustment.
- Move inner sliding pole to desired ceiling drop.
- When desired ceiling drop is reached, ensure spring button protrudes from hole.

Warning!
Once button is pushed in, the inner pole will fall to maximum extension if not held.

Warning!
When selecting height, keep fingers clear of safety slot on reverse of pole.

Important
Ensure Spring Button fully protrudes from desired hole before any AV is attached.

3. Assemble Collar Onto Mounting Rail

- i. Fix item 4 onto the back of item 9 using item 10.

Note: Ensure the grub screws (item 8) are on the back of item 4.

- ii. Insert item 11 through the top and bottom channels on the back of item 12.

- iii. Attach item 9 centrally to item 12 using items 10 & 11.

4. Fit Mounting Rail To Pole

- i. Slide *item 4* onto *item 7* lining up the safety bolt holes on the collar and bottom of the pole.
- ii. Fasten *item 8* on *item 4* and insert *item 6* through *items 4 & 7*, securing the rail to the ceiling mount.

iii. Attach *item 5* onto *item 4*.

iv. Fit *item 13* to the ends of *item 12*.

- v. Tighten *item 3* on *item 1* to ensure the inner sliding pole is fixed securely in position.

5. Attach Interface Arms To Screen

For Screens with VESA fixings up to 400 x 400

Fix *item 14* to the rear of the screen using *items A - F*.

Note: Ensure the arms are facing the correct way round and the same holes are used on both arms.

Important: Ensure thumbwheels are facing outwards

Use spacers for screens with recessed fixings

Note: Set tilt before mounting screen

For tilt adjustment, use *item 19* to loosen the screw and thumbwheel on the interface arms. Re-tighten screw to fix tilt angle.

Quick tilt settings

2x *item 15* are required for a flat 0° display.

Attach Adaptor Arms To Interface Arms

For Screens with VESA 600 x 400 Fixings

- Fix item 16 to item 14 using item 17.
- Fix item 16 to the rear of the screen using items A - F.

Note: Ensure the arms are facing the correct way round and the same holes are used on both arms.

Landscape assembly

Important: Ensure the thumbwheels on item 14 are facing outwards

Portrait assembly

6. Mount Screen Onto Rail

Using item 14 hook screen onto item 12.
(This may require 2 people)

Note: Ensure the arms hook securely into the top channel of the mounting rail

Optional **Screen Levelling**

If necessary, adjust the Levelling Screw on top of *item 14* to level the screen.

7. **Secure Screen To Mount**

Tighten the Safety Screws on the bottom of *item 14* to secure the screen to the rail.

Note: If required the angle of the Inner sliding pole can be straightened by adjusting *item 3* on the Outer pole with *item 18*.

Cable Management

Route any cables through the bottom of the pole and out either through the top or side of *item 1*.
