

BT8385-CTW

FLOOR-TO-WALL MOUNTING KIT FOR USE WITH BT8385

Designed to securely install **BT8385** Vertical Columns close to a wall. The **BT8385-CTW** is made up from two parts; a wall plate that secures the BT8385 Vertical Column to the wall and a base plate that secures the column to the floor with a minimal footprint. The brackets support substantial loads and are ideal for mounting AV installations in retail and office environments where a close to wall installation is preferred to avoid trip hazards.

SPECIFICATIONS

Max load	70kg
Distance from the wall to the front of column	100mm
Colour	Black

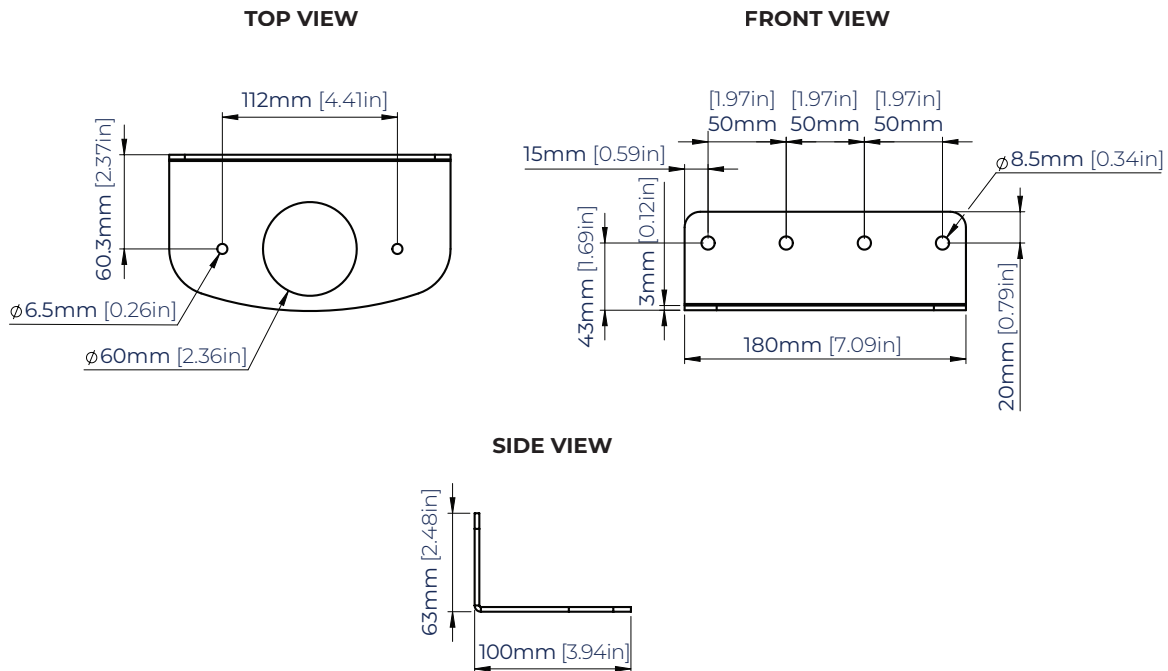

FEATURES

- 1 Close to the wall installation
 - 2 Base plate is fitted to the floor for a secure install using suitable fixings (not supplied)
 - 3 Cables can be run through the centre of the base and into the vertical column from under the floor
 - 4 Can be used to create large scale installations - ideal for control rooms
- For use with a BT8385 Vertical Column
 - Small footprint for unobtrusive setup
 - Heavy duty steel capable of supporting substantial loads
 - High-end aesthetic quality
 - Integrated cable management allows cables to run through the centre of the base and into the vertical column under the floor
