

SYSTEM **X**

Retractable Floor Base

Installation Guide

- Sliding floor base retracts a System X column/display stand backwards
- 400mm (15.75") retraction to improve access for servicing displays, ideal for shop fronts, close-to-the-window installations
- Fits directly to BT8380 / BT8381 columns, Ø50mm floor stand poles (BT4107, BT4116 & BT4118) or Ø50mm poles (BT7850) for ceiling mounting
- Max load (floor mounted using columns): 150kg (330lbs)*
*Max load reduced to 40kg (88lbs) when using floor stand poles
- Can also be ceiling mounted, max load: 75kg (165lbs)
- Lockable mechanism

Max Load Column	Max Load Pole	Max Load Ceiling
 150kg [330lbs]	 40kg [88lbs]	 75kg [165lbs]

Installation Safety Instructions

Caution: This mount is intended for use only with the maximum weights indicated. Use with equipment heavier than the maximum indicated may result in instability causing possible injury.

Do not attempt to install this product until all instructions and warnings have been read and properly understood. Please keep these instructions for future reference.

Please check carefully to make sure there are no missing or defective parts - defective parts must never be used. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire.

General

B-Tech AV Mounts recommends that a professional AV installer or other suitably qualified person install this product. Great care must always be taken during installation as most AV equipment is of a fragile nature, possibly heavy and easily damaged if dropped. If you do not fully understand the instructions or are not sure how to install this product safely, then please consult a professional for advice and/or to install this product for you. Failure to mount this product correctly may cause serious injury or death both during installation and at any time thereafter. Do not mount any AV equipment that exceeds the specific weight limit of the product you are installing. This weight limit will be clearly stated on each product and its packaging and will vary from product to product.

Product location

Please pay careful attention to where this product is located. Check load capacity of the floor prior to installation as some surfaces are not suitable for installation. When verifying the stability of the structure, consider the following external factors: The strength of the floor, exposure to sudden and severe wind and danger arising from contact with people and / or objects (e.g. installations in passageways, emergency exits). Designed for indoor use, this mount is suitable for public or home installation. If located in a public or frequently populated area ensure that the product is out of the immediate reach of people. If any AV equipment is to be suspended over the likely path or location of people then great care should be taken to secure all parts of the installation from falling. When drilling holes it is essential to avoid contact with electrical cables and water or gas pipes contained within. Use of a good quality live wire detector and hidden object locator is therefore recommended. Only drill into structures when you are sure it is safe to do so.

Fixing hardware

It is highly recommended that all fixing screws be used where supplied and that the purpose of all other fixing hardware is fully understood. In some cases more AV equipment fixing hardware will be supplied to accommodate different models of equipment and set up configurations. The installer must be satisfied that any supplied fixing hardware is suitable for each specific installation. The fixing kit supplied with the product may not be suitable for all walls. If any fixing screws or included hardware are deemed not sufficient for a safe installation then please consult a professional or your local hardware store.

Hazard limitation

When routing cables take advantage of any built in cable management features that the product might provide and ensure that all cables are tidy and secure. Check to see that any moving aspect of the product can do so unhindered by any cabling. Some products have moving parts and the potential to cause injury through the crushing or trapping of fingers or other body parts. Particular attention to the nature of moving parts is required especially when assembling installing and adjusting during set up. Immediately after installation double-check that the work done is safe and secure. Double-check all necessary fixings are present and are of ample tightness. It is recommended that periodic inspections of the product and its fixing points are made as frequently as possible (no more than 6 months apart) to ensure that safety is maintained. If in doubt consult a professional AV installer or other suitably qualified person.

- CN B-Tech AV Mounts 建议本产品由专业AV安装人员或其他合格人员安装。B-Tech AV Mounts 及它的代理商、经销商不对由于不恰当的安装而造成的损失或伤害负责。本产品必须安装在合适的架构上，并仅用于不超过所标示的最大承重。
- CS Společnost B-Tech AV Mounts doporučuje provést instalaci tohoto produktu instalátora AV či jinak způsobilé osoby. Společnost B-Tech AV Mounts, její distributoři a prodejci nenesou prostřednictvím odborného odpovědnost za škody nebo zranění způsobená nevhodnou instalací. Tento výrobek je nutno umístit do vhodné konstrukce a používat jen po uvedené maximální výšce.
- DE B-Tech AV Mounts empfiehlt, dass dieses Produkt durch einen qualifizierten AV-Techniker oder eine andere Person mit geeigneter Qualifikation installiert wird. B-Tech AV Mounts, ihre Distributoren und Händler können nicht für durch fehlerhafte Montage verursachte Beschädigung oder Verletzung haftbar bzw. verantwortlich gemacht werden. Dieses Produkt muss auf einem geeigneten Untergrund montiert werden und darf nur bis zum angegebenen Höchstgewicht verwendet werden.
- EN B-Tech AV Mounts recommends that this product be installed by a qualified AV technician or other suitably qualified person. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire. This product must be mounted on a suitable surface and may only be used up to the specified maximum weight.
- ES B-Tech AV Mounts recomienda que un instalador de audio y video profesional u otra persona debidamente cualificada instalen este producto. B-Tech AV Mounts, sus distribuidores y concesionarios no se hacen cargo ni se responsabilizan de ningún daño o lesión provocados por una instalación inapropiada. Este producto se debe montar en una estructura adecuada y se debe utilizar soportando solamente hasta el peso máximo indicado.
- FR B-Tech AV Mounts recommande de confier l'installation de ce produit à un installateur AV professionnel ou à une autre personne dûment qualifiée. B-Tech AV Mounts, ses distributeurs et ses revendeurs ne sauraient être tenus responsables de tout dégât ou de toute blessure résultant d'une installation incorrecte. Ce produit doit être monté sur un support approprié et utilisé dans la limite du poids maximum indiqué.
- IT B-Tech AV Mounts consiglia di affidare l'installazione di questo prodotto a un installatore specializzato o ad altra persona adeguatamente qualificata. B-Tech AV Mounts, i suoi distributori e rivenditori non accettano alcuna responsabilità nei riguardi di eventuali danni o infortuni causati da un'errata installazione. Questo prodotto deve essere fissato a una struttura idonea e utilizzato unicamente sino al peso massimo indicato.
- JP B-Tech AV Mounts はAV設置の専門家または適合した知識を備えた人が製品を設置することを推奨します。B-Tech AV Mountsと販売店、取引先はこうした安全指針に従わない場合に随伴される製品の損傷や傷害に対する責任を負いません。場合によって製品が設置されるに適していないところもあるので設置位置に特別な注意を傾けてください。この製品の位置に注意を傾けて設置に適していない壁があるかを確認してください。指定した重さ制限を超過するAV装備を装着しないでください。

BT8380-RFB Parts List

Please keep this for future reference

Installation Notes

Floor Mounted

The BT8380-RFB max height is 1.8m (71") when floor mounted using 1x column (BT8380/BT8381) or pole (BT4118).

BT8381 column: Max load: 100kg (220lbs) with the weight evenly spread across the length of the column. No more than 50kg (110lbs) should be mounted above 1.2m (47") on a single column.

BT8380 column: Max load: 150kg (330lbs) with the weight evenly spread across the length of the column). No more than 75kg (165lbs) should be mounted above 1.2m (47") on a single column.

BT4116 or BT4118 pole: Max load: 40kg (88lbs).

The BT8380-RFB max height is 2.4m (95") when floor mounted using 2x BT8380 columns. Max load is 150kg (330lbs) for each BT8380 column (weight evenly spread across the length of the columns).

Note: Poles and BT8381 not to be extended beyond 1.8m (71").

Ceiling Mounted

The BT8380-RFB max drop is 2m (79") when ceiling mounted with BT7850 pole/s. Max load: 75kg (165lbs) per pole.

Note: Only BT7850 poles must be used for ceiling mounting.

14	Cable Tie	2
15	3AFHex Key	1
16	5AF Hex Key	1

Suitable for loads up to 150kg (330lbs)

Installation Instructions

1. Pre-Drill Holes In Floor / Ceiling

Prepare Floor or Ceiling surface.
Use the floor base as a template
to mark fixing holes.
Drill fixing holes and insert suitable
floor anchors (*not supplied*)*.
*M10 Anchors recommended

Bottom View

2. Attach Handle

Fix item 9 onto item 1 using item 10.

Optional: If handle is not required, use item 11 to cover the holes.

3A. BT8380 Column Installation

- i. Stick *item 6* onto *item 3* and place on the top of *item 1* aligning the holes.

Note: Place tape away from edges.

- ii. Slide open the base and line up the BT8380 column (*sold separately*) with the base. Use *item 7* to attach *items 1 & 2* to the column.

Note: This section of *item 2* is attached later when the base is fixed to floor.

Note: For an easy install, all cables should be fitted at this stage. Cable Guide (*item 2*) will be inaccessible once installed.

Pop open the clips on *item 2* to insert cables.

3B. BT8381 Column Installation

- i. Stick *item 6* onto *item 4* and place the top of *item 1* aligning the holes.

Note: Place tape away from edges.

- ii. Slide open the base and line up the BT8381 column (*sold separately*) with the base. Use *item 7* to attach *items 1 & 2* to the column.

Note: This section of *item 2* is attached later when the base is fixed to floor.

Note: For an easy install, all cables should be fitted at this stage. Cable Guide (*item 2*) will be inaccessible once installed.

Pop open the clips on *item 2* to insert cables.

3C. Ø50mm Pole Floor Stand Installation

- i. Stick *item 6* onto the bottom of *item 5* and place on the top of *item 1* aligning the holes.

Note: Place tape away from edges.

Note: Max load is reduced to 40kg (88lbs) when using floor stand poles

- ii. Fit Ø50mm pole to the base.

Use the M16 x 50mm screw supplied with the BT4107/BT4116/BT4118 pole (*sold separately*) to fix *items 1 & 2* to the pole. Once the pole has been fixed, add *item 8* to prevent the pole from rotating.

Note: This section of *item 2* is attached later when the base is fixed to floor.

Note: For an easy install, all cables should be fitted at this stage. Cable Guide (*item 2*) will be inaccessible once installed.

Pop open the clips on *item 2* to insert cables.

4. Bolt Stand Down

Use the pre-installed floor anchors to fix base (*items 1 & 2*) to the floor.

Optional: Cable Management.
Breakaway to allow external cable routing.

Optional: Use *item 12* to lock the base and prevent the stand from being retracted.

Ceiling Installation

1. Ø50mm Pole Ceiling Installation

Refer to **Step 3C** for pole mounting.

Stick *item 6* on to *item 5*.

Note: Carefully place tape away from edges.

Note: Max load is reduced to 75kg (165lbs) when ceiling mounted

2 Attach Ø50mm Pole Adaptor From BT7825

Dismantle a BT7825 (sold separately).

Keep the Pole Adaptor, Countersunk Screw, Washers and Nyloc Nut.

Ø50mm Pole Ceiling Attachment

- i. Fit the Pole Adaptor to *items 1 & 3*, using the screw, washers & nut from the BT7825.

Note: Ensure the Cable Guide (*item 2*) is also attached

- ii. Once the adaptor is tight on *item 1*, add *item 8* to prevent the pole from rotating during this step.

Note: To improve installation process all cables should be fitted at this stage. Cable carrier (*item 2*) will be inaccessible once installed.

3. Mount Retractable Base To Ceiling

Measure, mark and drill holes in ceiling (see page 6 for fixing dimensions).

Open *item 1* and mount to the ceiling using suitable fixings (*not supplied*).

Note: Use keyhole fixings for a safe and easy attachment.

Note: Use these fixings to attach *item 2* to *item 1*.

4. Attach Pole To The Pole Adaptor

Attach a BT7850 pole according to the BT7825 Assembly Manual.

Note: Max ceiling drop is 2m (79").

Example Installation

Warning!
Avoid pulling the stand back by the top of the column.

Note:
If handle (item 9) is not fitted to item 1, use item 13 with the cable hole on top of item 1 to pull back base.
