

BT8380-AFB

SYSTEM X™ BOLT-DOWN FLOOR BASE WITH LEVEL ADJUSTMENT

Designed to securely fix B-Tech's vertical columns, poles or rails to uneven floors, the **BT8380-AFB** uses a levelling plate with +/-13.5mm of adjustment available on each corner ensuring a level installation of the display stand. The bolt down floor base is suitable for use on floors with minor slopes or uneven surfaces and strong enough to support substantial loads of up to 150kg per column. With a minimal footprint and a base cover plate, the BT8380-AFB is ideal for installations where floor space is limited, such as corporate locations, control rooms, retail shop fronts or for close to the wall displays.

SPECIFICATIONS
