

BTXPS-TK4

FULL TRIM KIT FOR SYSTEM XPRESS LED VIDEOWALLS

The **BTXPS-TK4** is a full set of trims including (side, top and bottom), custom cut to precisely match the height and depth of the LED videowall installation. Designed for use with System Xpress mounting solutions, the trims provide a neat, professional finish concealing the exposed sides of the mounted display. By attaching directly to the mounting rails, rather than the LED cabinets, the trim kit helps protect cabinets and modules from potential damage and with multiple fixing points provide a flexible and easy installation.

SPECIFICATIONS

Compatible with	System Xpress (BTXPS27 / BT9240 etc.)
