

BT7880

WALL MOUNT FOR APPLE TV® (4TH GEN)

Designed specifically for wall mounting 4th Generation Apple TV® media players, the **BT7880** features an open framework design which provides sufficient airflow to the device while keeping it secure; preventing unauthorised removal through the use of locking bars and "Pin Torx" security screws. The BT7880 features a large tilt and swivel range and can also be mounted onto poles and System X extrusions for more mounting flexibility. The mount is quick and easy to install and all mounting hardware is included.
