

BT7825

TRUSS MOUNT FOR Ø2" POLES

Designed to fit B-Tech's Ø2" poles onto truss systems, scaffolding and other horizontal poles, the **BT7825** features a Zinc plated clamp to fit truss sizes of Ø1.7" - Ø2" and integrated cable management. The BT7825 has a drop length of 7.6" and comes pre-assembled to shorten install times. Supplied as standard with safety bolt and grub screws for a secure installation, these can be replaced with alternative shorter versions, to allow a better channel that allows cables to pass through more easily.

SPECIFICATIONS

Max load (single screen installations)	144lbs
Max load (back-to-back installations)	308lbs
Steel thickness	0.07"
Drop length	7.6"
Truss compatibility	Ø1.7" - Ø2"
Color	Black

FEATURES

- 1 Grub screws allow micro-adjustment of the pole angle once mounted
 - 2 Integrated cable management for a neat and tidy installation
 - 3 Wing-nut fixing allows quick release of the clamp from the pole
 - 4 Fits truss systems from 1.7" up to 2"
- Adjustable adaptor for attaching Ø2" poles to truss system's scaffolding and other horizontal poles
 - Supplied with safety bolt for secure installation
 - Internally unobstructed for cables to pass through easily
