

# BT8309

## POP-OUT FLAT SCREEN WALL MOUNT WITH MICRO-ADJUSTMENT

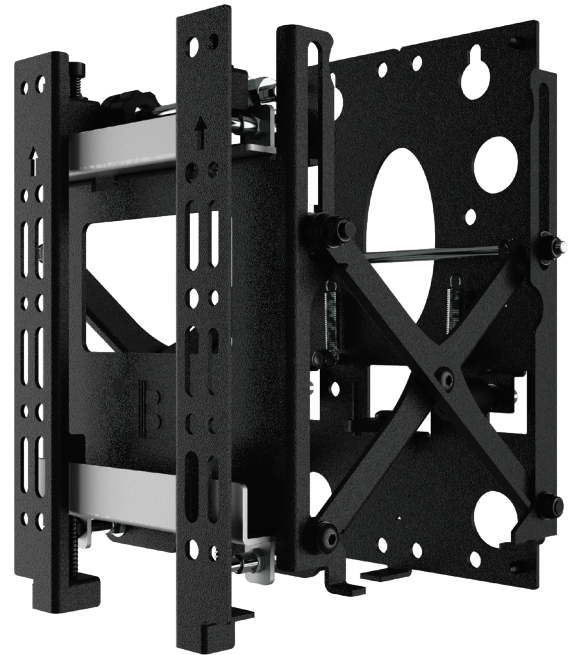

The **BT8309** is designed to install small to medium screens into recessed walls. The pop-out mechanism allows for a flush to the wall installation while still allowing access to the rear of the screen for easy installation and service access. Tool-less micro-adjustment is included on each corner to allow screens to perfectly align to the recess and additional screens in a videowall installation. BT8309 also allows screens to be mounted in landscape or portrait orientation and is compatible with B-Tech's professional pole and collar system for pole-mounted installs.

### SPECIFICATIONS

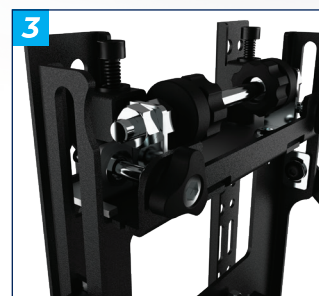

|                                |                                              |
|--------------------------------|----------------------------------------------|
| Recommended screen size        | up to <b>42"</b>                             |
| Max load                       | <b>55lbs</b>                                 |
| VESA compatibility as standard | <b>75 x 75</b> up to <b>200 x 200</b>        |
| Flat to wall depth             | <b>2.9"</b> (+/- 0.2" with micro-adjustment) |
